School Council

Whitestone have a valued school council that meets to make sure our pupil voice is shared and acted upon, each class elects a pupil to be their representative. Children who want to be councillors for their class in year two, fill in a manifesto and give speeches about why they want to be a councillor and how they will represent their class, and then the children have a vote!

Each councillor has to ensure that the views of all of the children in their class are heard. They work with Mrs Hill in meetings and teachers in class to find ways of collecting the ideas and suggestions of the rest of the school. These are then shared at the next meeting.

The school council meet as often as they can, at least once every half -term to talk about any issues that have been raised by the children in class, or by other members of our school community. We have worked on issues around having a school pet, how to raise money for charities, how to promote healthy eating especially at lunch time and what we would like in our outside provision. Let's see what we can achieve this year.

Our councillors have already met this year and have discussed their manifestos. They would like to focus on :

- How to ensure everyone in school uses their manners.
- How to reduce noise.
- How to increase our English lessons and have longer play times.
- Finally, one child said "More people visiting our school to see how kind we are!"

We will be putting together our plan of action, please see our school councillors board for more information.

Children remember to talk to your school councillor and share your views in your class.
